FOR IMMEDIATE RELEASE

Safety While Sharing the Road

No matter what we're driving – whether it's a car, a motorcycle, or a tractor – we all use and share the same public roadways. That's why road safety is everyone's responsibility because our actions on the road affect more than just ourselves.

If you're a motorist, it's important to slow down and exercise caution near farm machinery. Farm equipment may be larger than it appears, so always wait until it is safe to pass.

And farm equipment operators need to inspect machinery before hitting the road. Ensure that every light is working so that the machinery is visible to other drivers.

We all have the same goal of getting home safely at the end of the day, and being safety conscious and proactive on the road will help make sure that happens.

For information about farm safety, visit www.casa-acsa.ca.
